

AMENDMENT OF THE CLAIMS

1-38 (Cancelled).

39. (New) A method for aggregating an e-commerce transaction, the method comprising:
receiving an electronic receipt, the electronic receipt describing a transaction to
purchase a product by a purchaser from a merchant;
gathering product information associated with the transaction comprising
retrieving the product information from a manufacturer associated with the
product; and
packaging the product information with the electronic receipt to create an
aggregated package.
40. (New) The method of claim 39, further comprising transmitting the aggregated
package to an email address associated with the purchaser.
41. (New) The method of claim 39, further comprising certifying the transaction with
a certificate of authenticity.
42. (New) The method of claim 39, wherein gathering product information comprises
determining a language selected for the product information and gathering
product information in the selected language.
43. (New) The method of claim 39, wherein gathering product information comprises
retrieving the product information from a group of sources comprising the
merchant, a bank associated with the purchaser, a manufacturer associated with
the product, a manufacturer having accessories associated with the product, and a
retailer having accessories associated with the product.

44. (New) The method of claim 43, wherein retrieving the product information comprises requesting the product information from the group of sources, the product information comprising data associated with the product, from a category of data of a group of categories comprising warranty information, rebate information, product registration information, follow-on order information, depictions of the product, specifications, manuals, accessories, links to product information, links to manufacturer web sites, links to the merchant's web site, and links to the bank's web site.
45. (New) The method of claim 39, wherein packaging the product information comprises storing the electronic receipt and the product information in a format that is accessible by a personal finance manager.
46. (New) An apparatus for aggregating an e-commerce transaction, the apparatus comprising:
a receipt processor, responsive to receiving an electronic receipt, the electronic receipt describing a transaction to purchase a product from a merchant by a purchaser and to gather product information associated with the transaction based upon the electronic receipt wherein the receipt processor comprises an information gatherer to retrieve the product information from a manufacturer associated with the product; and
a packager to package the product information with the electronic receipt to create an aggregated package.
47. (New) The apparatus of claim 46, further comprising a package transmitter to determine an email address associated with the purchaser and to transmit the aggregated package to the email address.
48. (New) The apparatus of claim 46, further comprising a transaction authenticator to certify that funds transferred from the purchaser to the merchant for the product.

49. (New) The apparatus of claim 46, wherein the receipt processor comprises a receipt parser to parse the electronic receipt to identify the product.
50. (New) The apparatus of claim 46, wherein the receipt processor comprises an information gatherer to retrieve the product information from a group of sources comprising the merchant, a bank associated with the purchaser, a manufacturer associated with the product, a manufacturer having accessories associated with the product, and a retailer having accessories associated with the product.
51. (New) The apparatus of claim 46, wherein the receipt processor comprises an information gatherer to request the product information from at least one of the group of sources, the product information comprising data associated with the product, from a category of data of a group of categories comprising warranty information, rebate information, product registration information, follow-on order information, depictions of the product, specifications, manuals, accessories, links to product information, links to manufacturer web sites, links to the merchant's web site, and links to the bank's web site.
52. (New) A machine-accessible medium containing instructions, which when executed by a machine, cause said machine to perform operations, comprising:
receiving an electronic receipt from a merchant, the electronic receipt describing a transaction to purchase a product by a purchaser;
gathering product information associated with the transaction wherein gathering product information comprises retrieving the product information from a manufacturer associated with the product; and
packaging the product information with the electronic receipt to create an aggregated package.
53. (New) The machine-accessible medium of claim 51, wherein the operations further comprise transmitting the aggregated package to an email address associated with the purchaser.

54. (New) The machine-accessible medium of claim 51, wherein the operations further comprise certifying the transaction with a certificate of authenticity.
55. (New) The machine-accessible medium of claim 51, wherein gathering product information comprises determining a language selected for the product information and gathering product information in the selected language.
56. (New) The machine-accessible medium of claim 51, wherein gathering product information comprises retrieving the product information from a group of sources comprising the merchant, a bank associated with the purchaser, a manufacturer associated with the product, a manufacturer having accessories associated with the product, and a retailer having accessories associated with the product.
57. (New) The machine-accessible medium of claim 51, wherein retrieving the product information comprises requesting the product information from at least one of the group of sources, the product information comprising data associated with the product, from a category of data of a group of categories comprising warranty information, rebate information, product registration information, follow-on order information, depictions of the product, specifications, manuals, accessories, links to product information, links to manufacturer web sites, links to the merchant's web site, and links to the bank's web site.
58. (New) The machine-accessible medium of claim 51, wherein packaging the product information comprises storing the electronic receipt and the product information in a format that is accessible by a personal finance manager.
